We had amazing results today with the temperament testing, with all puppies suitable for families with children, all suitable with other dogs and barely anything to choose between them, which will make it so much harder for you when you come to see them.

We have never ever had a litter with such amazing results and proof is in the puppies when you meet them. Just happy bundles of joy. Confidence is everything and we couldn't be prouder of the puppies.

We are keeping one girl from this litter.

## Boy 1 – red & white parti

Very confident and a happy puppy, He also has a huge heart and likes being centre of all the attention.

Suitable for children of all ages. He would thrive with any family

Suitable with any other dog house hold.

Comes tail ready up and wagging. No high pray drive and therapy quality.

What an amazing boy with a real teddy bear face.

## Boy 2 –Red and White Parti

Received many compliments today as he came tail ready up and licked hands. He is suitable with children of all ages and other dog house hold. He loves attention and playing with our children. He is also therapy quality.

He has lovely eyes and puppy dog face.
